1. Project Name

P6 Insurance Core Components
Version: 1.0

2. Objectives

2.1. Purpose

The purpose of the project is to develop Core Components for documenting business data in insurance messages, its context and data structure.

2.2. Scope

The scope for this project and the area of insurance business data to be covered includes data in the complete cycle of risk management, placement, claims and accounts between customers of insurance companies, the insurance companies and their agents and insurance brokers. It includes domestic and international environments, insurance and reinsurance, single company policies and co-insurance.

3. Deliverables

A catalogue of Insurance Core Components for the Insurance Industry.

4. Functional Expertise of Membership

The project team is a group of experts with a balanced profile of skills and expertise in information analysis, knowledge of insurance business data and in the presentation and documentation of technical material, either individually or collectively as a group.

5. Geographical Focus

The focus is global and cross-sectorial within the functional area of insurance business data. Each UN/CEFACT head of delegation may designate one or more experts to the project team. In doing so, they may delegate this task to one or more organizations, which may be national, regional or international. Experts are expected to contribute to the work based solely on their expertise.

Experts who wish to participate should contact the project lead.

6. Initial Contributions

The following contributions are submitted as part of this proposal. It is understood that these are only for consideration by the project team and that other participants may submit their own contributions in order to ensure the gathering of as much information as possible from those with expertise and a material interest in the project but at the same time allow diverse voices to comment on the details of the projects and ensures that no single organization can dominate the process:

The following have expressed an interest in making such contributions:

- 1 – P&C Model – by ACORD
- 2 – SMILE Model – by EEG7

7. Project Management
