Scope

There are 3 Small scaled Lodging House Information Process Projects. The 1st Project is General Information Process project which is just Information Process Project named p045. The 2nd Project is Travel Product Information Process Project named p095. The 3rd Project is Reserrvation Information Process Project named p106. The small scaled lodging house is such lodging house or hotel, which is used mainly for leisure rather than business, has diversified travel products, has been used by local people and has a historical presence in the area. All of the development phase has completed by the end of 2012, and now we are in the maintenance phase with new code development.

We are going to contemplate the project of Destination Travel Information Process for the near future activity.
