

# Paris 21 - Partnership in Statistics for Development in the 21st Century

## 5.7 Technical cooperation and capacity building programmes (Paris21)

### Purpose

The Partnership in Statistics for Development in the 21st Century (PARIS21) is a global partnership of national, regional, and international statisticians, analysts, policy-makers, development professionals, and other users of statistics. The PARIS21 Consortium was established as a global forum and network to promote, influence, and facilitate statistical capacity development and the better use of statistics.

### Objectives and outputs

PARIS21's goal is to develop a culture of Management for Development Results. PARIS21 pursues this goal by encouraging and assisting low-income and lower middle income countries in the design, implementation, and monitoring of National Strategies for the Development of Statistics (NSDS). The PARIS21 Secretariat supports NSDS processes primarily through the following types of activities: (1) facilitating the coordination of stakeholders to better address an evolving agenda, (2) advocating for increased involvement of national stakeholders in statistical development and enhancing the status of statistics in major international initiatives, (3) promoting better-quality and effectively implemented NSDSs, and (4) stimulating increased demand for and better use of data. The PARIS21 Secretariat continues to co-manage and implement with the World Bank and other partners two key statistical programs — the International Household Survey Network (IHSN) and the Accelerated Data Program (ADP). The IHSN's objective is to bring survey producers, sponsors, and users together to improve the use of survey data for policy making and monitoring. The ADP assists countries to undertake urgent improvements to produce consistent results for monitoring progress and measuring change in key development indicators, including the MDGs.

### Non-member countries involved in the activity:

Afghanistan, Albania, Algeria, Angola, Armenia, Azerbaijan, Bangladesh, Benin, Bhutan, Bolivia, Bosnia-Herzegovina, Botswana, Burkina Faso, Burundi, Cambodia, Cameroon, Cape Verde, Central African Republic, Chad, China, Colombia, Comoros, Congo, Côte d'Ivoire, Democratic Republic of Congo, Djibouti, Dominica, Dominican Republic, Ecuador, Egypt, El Salvador, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Georgia, Ghana, Grenada, Guatemala, Guinea, Guinea-Bissau, Guyana, Haiti, Honduras, India, Indonesia, Iran, Iraq, Jordan, Kenya, Kiribati, Korea (DR), Kosovo, Kyrgyzstan, Lao PDR, Lesotho, Liberia, Libyan Arab Jamahiriya, Macedonia, Madagascar, Malawi, Maldives, Mali, Marshall Islands, Mauritania, Mauritius, Micronesia, Moldova, Mongolia, Morocco, Mozambique, Myanmar, Namibia, Nepal, Nicaragua, Niger, Nigeria, Niue, Pakistan, Palestinian Adm. Area, Papua New Guinea, Paraguay, Peru, Philippines, Rwanda, Samoa, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Solomon Islands, Somalia, South Africa, Sri Lanka, St Lucia, St Vincent & Grenadines, Sudan, Swaziland, Syrian Arab Republic, Tajikistan, Tanzania, Thailand, Timor-Leste, Togo, Tonga, Tunisia, Turkmenistan, Tuvalu, Uganda, Ukraine, Uzbekistan, Vanuatu, Vietnam, Yemen, Zambia, and Zimbabwe.

### Main Developments for 2011

#### General aspects:

In 2011, in collaboration with bilateral, regional, and international partners, PARIS21 will conduct the next round of its "Partner Report on Support to Statistics (PRESS)." The aim of the exercise will be to report on donor activities in support of statistical development, with an ultimate objective of facilitating donor collaboration. In addition, PARIS21 will update the NSDS guidelines, enriching them with experiences gained over the past several years. In order to better mainstream sectoral concerns into national strategies, PARIS21 and UNESCO will also provide specific additional support in the development of education statistics to a number of African pilot countries.

#### Statistical Capacity Building

##### Ongoing work:

- In 2011, ongoing PARIS21 Secretariat work will involve activities at the national and regional level. The activities related to country support will focus on the facilitation of NSDS implementation, including the establishment of national partnerships of stakeholders around statistics. The national partnership is intended to facilitate a better alignment of donor support to the NSDS implementation plan, increased mobilization of resources at the country level, and the use of more efficient and better coordinated funding arrangements for statistical development activities. At the regional level, workshops will be organised in the Andean Community, Arab States, South-East Asian, and Southern African regions to allow countries to share information and benefit from other countries' experiences in statistical development.

##### Priority objectives:

- The main aim of the PARIS21 partnership is to support implementation of well-designed and well-coordinated national and international statistical programmes, which have adequate funding and are centred on implementing NSDSs which both develop statistical capacity and provide data for immediate priority needs.

***New activities:***

- In 2011, PARIS21 will monitor the implementation of the Dakar Declaration on the Development of Statistics, which outlines a five-point call to action for the Partnership on issues relating to: strategy implementation, mobilisation of technical and financial resources for statistics, co-ordination of donor support to statistics, meeting the needs of data users, and development of statistical tools and methodologies.
