

Statistical Classification Model

Contents

Summary

1 Introduction

- 1.1 Background
- 1.2 Context and scope
- 1.3 Classification and related concepts
- 1.4 Other terminologies
- 1.5 Implementation
- 1.6 Layout of the GSIM Statistical Classification Model
- 1.7 References

2 Object types

3 Object graph

4 Object types and attributes

- 4.1 Classification Family
- 4.2 Classification Series
- 4.3 Statistical Classification
- 4.4 Level
- 4.5 Correspondence Table
- 4.6 Classification Index
- 4.7 Classification Item
- 4.8 Map
- 4.9 Classification index entry

Appendix 1: Worked example of the GSIM Statistical Classification Model

Appendix 2: Checklist of possible content for the Introduction to a Statistical Classification

Appendix 3: A typology of Classification Item changes

word version

Generic Statistical Information Model (GSIM): Statistical Classifications Model

(Version 1.1, December 2013)

About this document

This document defines the key concepts that are relevant to structuring statistical classification metadata, and provides the conceptual framework for the development of a statistical classification management system. It is aimed at classification experts.
