

Overview of DDI (Data Documentation Initiative)

1) Basic Information

Training material title
Overview of DDI (Data Documentation Initiative)
Brief description and comments

Slides from a presentation given at a UNECE Workshop on Statistical Metadata: Implementing the GSBPM and Combining Metadata Standards, 5-7 October 2011 (other papers from the same workshop can be found at <http://www.unece.org/stats/documents/2011.10.metis.html>).

The Presentation was prepared and delivered by Arofan Gregory of the Open Data Foundation.

The slides cover a general introduction to DDI; high-level content; typical use cases; structural components; additional technical topics; and an overview of activities relating to DDI, SDMX and GSBPM.
