

2. Modelling the Information and Processes of a Statistical Organization (Statistics Canada)

 1. Introduction (Statistics Canada)

 Statistics Canada

3. Statistical Metadata in each phase of the Statistical Business Process (Statistics Canada) 

2.1 Statistical information model

2.2 Adoption of GSIM

2.3 Statistical business process model

Statistics Canada approved the Generic Statistical Business Process Model version 4 (GSBPM) as a reference model in March 2010. The GSBPM has since been used to model several large projects as part of the modernization initiative. For each of the top level phases of the GSBPM, there is a description of the core business phase and corresponding recommendations.[1]

[1] See Section III-B for further discussion of the Agency's use of the GSBPM.

2.4 Relation to other models
