Training material title
Training Video on Gender, Entrepreneurship and Finance/ ,
Brief description and comments

Women's equal access to and control over economic and financial resources is critical for the achievement of gender equality, for their empowerment and for equitable and sustainable economic growth and development. Both economic and financial resources have important implications for women's economic roles in sustaining household livelihoods, in labour markets and in the wider economy.

Audience: This video is intended for users and producers of statistics, middle and senior staff in statistical organizations, policy and decision makers, academia and stakeholders interested in gender statistics.
