

# Issue 21: Add design of disclosure control to 2.5 description

## From the StatCan Data Quality Secretariat:

I have used the GSBPM in several different contexts, mostly related to managing quality. I have found the model to be very useful and easily understood. That said, there is always room for improvement. Below is my humble feedback.

- At step 6.4 we apply disclosure control; however at no point in the model did we ever design the disclosure control methodology. I suggest including “disclosure control” in the list provided in the description for step 2.5.

Please indicate your support for this change using the stars and legend below

- 5\* (We should do this)
- 4\* (Good idea, but need to discuss)
- 3\* (I am not sure, we need to discuss)
- 2\* (Should not make the change, but need to discuss)
- 1\* (Should not make this change)

Unknown macro: 'rate'
