## 1) Basic Information

Training material title
Business Registers – Recommendations Manual
Brief description and comments

---

The BR Regulation sets out a common framework for the harmonisation of national registers, but the practical implications are not always clear, partly because the Regulation is the outcome of complex negotiations. This Manual aims to explain the reasoning behind the provisions of the Regulation.

It aims to provide the extra information required for the correct and consistent interpretation of the Regulation in all countries.

**Main category**

Economic Statistics
