

Understanding Statistics: online training resources from ABS

1) Basic Information

Training material title
Understanding Statistics: helping you make sense of statistics. Online training resources from the Australian National Bureau of Statistics
Brief description and comments

This resource is a series of different materials to improve statistical literacy, and to develop understanding of and communication of statistical information and data. Materials include 'Statistical Skills for Official Statisticians', 'Statistical Language', a series of videos about statistical production and findings in Australia, a 'Guide for Using Statistics for Evidence-Based Policy', and others. The site also includes links to other, externally-produced, resources.

Main category

Methodology of Data Collection, Processing, Dissemination & Analysis
